

Preliminary Hearings

1. Preliminary hearings generally do not involve presentation of evidence. An exception is an emergency hearing on use of cash collateral at which evidence will be taken if offered by a party.
2. Preliminary hearings generally are scheduled on a trailing docket.
3. If you have requested to appear by telephone, please ensure that you are available at the scheduled time and until you are called, and that your telephone line is free until you are called. If you are not available when called, for example if your telephone line is busy or if we are directed to voice mail, the Court may deny your motion or overrule your objection by default. See the link entitled Telephone Appearances at Hearings on Judge Jacobvitz's web page.
